

STATE OF WASHINGTON  
DEPARTMENT OF HEALTH  
*Olympia, Washington 98504*  
**DEPARTMENT OF HEALTH**  
**WASHINGTON STATE BOARD OF PHARMACY**  
**December 14, 2006**  
CenterPoint Corporate Park Conference Center  
20809 72<sup>nd</sup> Ave South  
Kent, WA 98032  
Board Office: (360) 236-4825

**CONVENE**

Chair Asaad Awan convened the meeting at 9:16 a.m. on December 14, 2006.

Board Members present:

Donna Dockter, RPh  
Gary Harris, RPh  
Rebecca Hille, Vice-Chair  
Rosemarie Duffy, RN  
Susan Teil-Boyer, RPh  
George Roe, RPh

Staff Members present:

Joyce Roper, Assistant Attorney General  
Lisa Salmi, Acting Executive Director  
Tim Fuller, Pharmacist Investigator/Consultant  
Andy Mecca, Pharmacist Investigator/Consultant  
Stan Jeppesen, Pharmacist Investigator  
Jim Doll, Pharmacist Investigator  
Dick Morrison, Pharmacist Investigator  
Doreen Beebe, Program Manager

**December 14, 2006**

**Open Meeting**

**RULES HEARING -WAC 246-860 Standards for Professional Conduct – Sexual**

**Misconduct**- No public testimony was given. Written public comment received from Jennifer Shaw, Legislative Director of the Washington American Civil Liberties Union was read into record.

**MOTION:** Rebecca Hille moved to amend subsection WAC 246-860-100(3) to read: A health care provider shall not engage, or attempt to engage, in the activities listed in subsection (1) of this section with a former patient, client, or key party and to amend subsection (4) to read: When evaluating whether a health care provider engaged or attempted to engage, in sexual misconduct,

the Board will consider factors, including but not limited to: (the rest remains unchanged).  
George Roe second. **MOTION CARRIED 6-0.**

### **CONSENT AGENDA**

- 1.1** Pharmacist License Application Approval
  - Nuclear Pharmacists – Brian Osterberg & Dave Osterberg
- 1.2** Pharmacy & Other Firm Application Approval
  - New and Closed Pharmaceutical Firms – 09/03/200 – 11/02/2006
- 1.4** Pharmacy Tech Training Program Approval
  - Cavallini's Pharmacy
  - Out of State Program for Ann Hubacher – Career Skills Institute of Vacaville CA
  - Out of State Program for Catherine DeGeorge – CVS Pharmacy of Norwood MA
  - Out of State Program for Daniel Silhan – Pioneer Pacific College of Wilsonville OR
- 1.5** Collaborative Drug Therapy Agreement Acceptance
  - Glenn Adams – Warfarin therapy
  - Quynh Trana – Hepatitis B & C
  - Richard Molitor – Nipple Ointment
  - Virginia Mason Medical Center – TPN – Total Parenteral Nutrition
  - Jami Beemer – Anti- Malarial Prophylaxis, Epi-Pen, Altitude Sickness, Motion Sickness, and Traveler's Diarrhea Agreements
  - Nicole Klosterman – Anticoagulation
  - St John Medical Center – Anticoagulation therapy
  - Stacy Eria – Aminoglycoside
- 1.6** Automated Drug Distribution Device Acceptance
  - Auburn Regional Medical Center
  - ExcelleRx, Inc – Evergreen Hospice
  - Olympic Medical Center
- 1.8** Board Minute Approval – October 27, 2006

Item 1.3 – Pharmacy Technician Application Approval; 1.7 Sample Distribution Requests were deleted for the consent agenda and items 1.6 and 1.8 were pulled for further discussion.

MOTION: George Roe moved that the Board accept consent agenda items 1.1, 1.2, 1.4.and 1.5.  
Susan Teil-Boyer second. **MOTION CARRIED 6-0.**

#### **1.6 Automated Drug Distribution Device Acceptance**

- ExcelleRx, Inc

Tim Fuller briefed the Board on ExcelleRx, Inc.'s proposal for the use of automated drug distribution devices (ADDD's) in a hospice setting where pharmacists managing the order review are out-of-state (Pennsylvania). Ms. Catherine Woods, Esq. representing ExcelleRx.Inc participated via telephone.

Ms. Woods explained that ExcelleRx, Inc. operating as Hospice Pharmacia currently provides mail order and clinical review services for Evergreen Hospice homecare and is requesting to provide remote order processing for Evergreen Hospice inpatient unit (IPU) using automated drug distribution devices.

Discussion:

- Responsible pharmacist manager – licensed in WA and PA
- ExcelleRx.Inc – WA licensed non-resident pharmacy
- Does the Board have legal authority to charge the responsible pharmacist manager if a staff pharmacist commits an error? Does the responsible pharmacist manager accept responsibility?
- Board has disciplinary authority over WA pharmacist and WA pharmacy license and referral of complaint to resident licensing authority.
- Remote pharmacy systems manager (system specialist) a pharmacy technician reports to pharmacist.
- Stocking ADDD's is restricted to pharmacists, pharmacy interns, and pharmacy technicians.
- Hospice IPU site visit to answer how discrepancies are resolved – tracking/accountability.

**MOTION:** Susan Teil-Boyer moved that the Board defer ExcelleRx. Inc.'s request until a future meeting and asks that the Responsible Pharmacist Manager of the Pennsylvania pharmacy be available in person to address the Board's questions about the process. Gary Harris second.

**MOTION CARRIED 6-0**

- Auburn Regional Medical Center & Olympic Medical Center

**MOTION:** Donna Dockter moved to approve the automated drug distribution devices requests from Auburn Regional Medical Center, and Olympic Medical Center. Susan Teil-Boyer second.

**MOTION CARRIED 6-0.**

#### 1.8 Board Minutes Approval – October 27, 2006

**Final MOTION:** Rosemarie Duffy moved that the Board accept the October 27, 2006 meeting notes with amendments to the Wal-Mart/Sam's Club Will-Call Kiosk proposal to show that the written policies and procedures must be presented to the Board for approval prior to initiation of the six-month pilot, and by adding Asaad Awan, as Board member sponsor, to the law book rules under the Rule Prioritization item. George Roe second. **MOTION CARRIED 6-0.**

### **DISCUSSION**

#### Pharmacies' Responsibilities

The Board reviewed and discussed public comments received during the written stakeholder comment period collected via the Department of Health's webpage ending December 11<sup>th</sup>. During this time the Board Members had access to all comments posted to the web and received copies of all other written comments submitted. In total, web responses tabulated 1,119 comments in concurrence with the Pharmacies Responsibilities draft rule language and 219 in opposition. The draft rule language was written through collaborative efforts by the Northwest Women's Law Center, Planned Parenthood and the Washington State Pharmacy Association.

#### Discussion:

Donna Dockter suggested that the Board take a positive approach by simply stating that it is the pharmacy's duty to deliver prescriptions and not try to list exceptions. Ms. Dockter states the patient needs to be provided care and that might include an appropriate referral. Ms. Dockter indicated that she felt the draft rule is impractical in today's market where in most situations there is only one pharmacist on staff at a given time.

Rosemarie Duffy offered that the statement “except for the following or substantially similar circumstances” provides for similar situations that are not explicitly stated in the rule.

Action: Donna Dockter requests that the Board be provided with the results of the survey conducted as part of the rule’s analysis.

- Subsection (1) – Does not allow a pharmacy to not participate in the delivering of drugs/devices such as: Schedule V drugs, syringes etc.
- Subsection (1)(a) - Lethal dose verses Inappropriate dose
- Subsection (1)(c) - Compounding not requiring specialized equipment or expertise
- Subsection (3) - Consistent with customary pharmacy practice – Reasonable/Valid attempt

**Final MOTION:** Rosemarie Duffy accepts a friendly amendment by Ms. Dockter and moves that the Board accepts the draft rule Pharmacies’ Responsibilities with changes to subsection (1) (a) removing “such as an obviously lethal dosage”; in subsection (1) (b) adding the word “usage” to read – National or state emergencies or guidelines affecting availability, usage, or supplies of drugs or devices and in subsection (3) (a) removing the quotes around the words therapeutically equivalent. George Roe second. **MOTION CARRIED.** 4 – 2. Rosemarie Duffy, George Roe, Rebecca Hille and Gary Harris voted in favor – Donna Dockter and Susan Teil-Boyer voted to oppose.

Ms. Dockter presented the Board with a letter expressing her thoughts on this rule.

Steven Saxe informed the Board and the audience on the next steps in the rule making process. He stated that the decision today does not adopt the rules but directs staff to proceed with preparing the *Proposed Rule Making filing (CR102)*, *Significant Legislative Analysis* and *Small Business Economic Impact Statement* on the amendments to the Pharmacist’s Professional Responsibilities and new proposed rule regarding Pharmacies’ Responsibilities.

Once filed with the Code Reviser’s Office the documents will be distributed to interested parties and a public hearing would be held. Written and verbal public input will be considered and deliberated by the Board before a decision would be made on these rules. Mr. Saxe stated that we anticipate that the public hearing may be held in March 2007.

## **REPORTS**

### **Acting Executive Director**

*Lisa Salmi* reported:

- The 2007 Legislative Session convenes on January 8<sup>th</sup>. The Department will be holding “Meet Me” calls again this year. Rebecca Hille has volunteered to represent the Board of Pharmacy on these conference calls. The “Meet Me” calls are used to update Boards, Commissions, and Committees on bills that are of interest to all health care practitioners.
- As Ms. Salmi reported in October, the Health Professions Quality Assurance Division is participating in a performance audit. The audit is in response to Initiative 900 that requires the audit of state agencies to review and analyze the economy, efficiency and effectiveness of state and local government operations. The audit report will be completed in May 2007.
- Additional recruitment for the Central Washington Investigator position is being conducted. The position announcement was originally sent to all pharmacies in Yakima,

Benton and Franklin counties. The recruitment has been expanded by mailing notices to all pharmacists in these counties. To date, we have received two applications.

- Under a law passed last legislative session, the Washington State Patrol reports certain felony convictions to the Department each quarter. As a result of a comparison with names in the Department's licensee database, the first report showed 32 practitioners who were convicted of crimes during the first six-months of 2006. The convictions include crimes such as homicide, assault, kidnapping or sex offenses.
- Staff is recommending that the Board move up on its list of rule priorities rule making to address pharmacy practice in correctional facilities. The rules currently on the books do not adequately this practice setting. (Future Agenda Item)
- Ms. Salmi distributed to the Board a copy of the Seattle Times article. The article is a follow-up to an article last-Fall titled *Licensed to Harm*.

#### Board Member

*George Roe* will present a draft letter written to Laurie Jenkins, Health Systems Quality Assurance Assistant Secretary, expressing the Board's concerns regarding proposed HSQA re-structure.

*Rebecca Hille* attended the December quarterly Investigators' Meeting on December 7<sup>th</sup>. She briefed the Board on topics discussed.

- Pharmacy inspection issues, prescription safety caps and update on the pharmaceutical house hold waste project.

#### Assistant Attorney General

*Joyce Roper* reported:

On December 14, the Supreme Court issued its decision in Ongom v. Dept. of Health case which focused on the level of proof necessary to take disciplinary action against a registered nursing assistant's license. The Supreme Court decided, in a 5 to 4 decision, that the level of proof necessary is clear and convincing evidence, rather than proof by a preponderance of the evidence, which is the level of proof in most civil cases. The clear and convincing level of proof is less than the criminal burden of proof of beyond a reasonable doubt, but more than preponderance of the evidence (commonly referred to as the "more likely than not" level of proof). The court extended its decision in Nguyen v. Medical Quality Assurance Commission, which applied the higher level of proof to physician's licenses, to all licensed health care professions in the Ongom decision. The AGO is evaluating next steps, which could include a request that the U.S. Supreme Court accept review of the Ongom decision. Because the Supreme Court bases its decision on an interpretation of the U.S. Constitution's due process clause, the U.S. Supreme Court would have jurisdiction to accept review of this case. This basis also limits the ability of the legislature to revise the level of proof to the preponderance of the evidence, which had been the standard used for all health professions cases until the Nguyen and now the Ongom decisions. The preponderance of the evidence standard is more protective of the public, which the legislature declared as the primary purpose for licensing and disciplining of the health care professions.

#### Investigators/ Consultant Pharmacists

*Tim Fuller* reported:

- The following were topics of discussion at the December Investigators' Meeting.
  - Inspection of public health facilities licensed for emergency response drug storage.

- Development of inspection criteria for drug storage by local health districts.
- Review of new Automated Drug Distribution Device rule with an emphasis on expectations during site inspections.
- Will-call bin/kiosk technology and recently approved pilot program.
- Medication Therapy Management services.

*Andy Mecca* reported:

- During the month of December a University of Washington, School of Pharmacy student served one of his clerkships working with Board staff. A majority of his time was spent in the field with Board Investigators visiting many different pharmacy practice settings to gain information and experience on how pharmacy laws/regulations are applied.
- On December 11<sup>th</sup> Mr. Mecca conducted a presentation on the proper technique for prescribing, storing, and dispensing controlled substances to the Washington State Veterinarian Board of Governors. Discussions included focusing on what veterinary technicians and clerks could do.
- The Agency Medical Director's Group issued their final Opioid Guideline. They are planning to implement an educational pilot as well as a mechanism to evaluate it.

#### Pharmacist Investigator

*Stan Jeppesen* provided an update on the Group Health Cooperative's (GHC) "Take Back Medication Program," a project designed for pharmacies to take back patients' unwanted medications for destruction. Investigator Jeppesen distributed to Board members GHC's protocol.

In November GHC started six collection sites in Western Washington and one in Spokane. To date, the project has collected 19 five-gallon buckets of drug waste materials. Advertising of the program has been delay until January or February to ensure that all processes/procedures are working appropriately. All has been going well. In January, an additional 17 to 18 sites throughout the state will be added to the program.

At this time, the program has not partnered with a disposer for the destruction of the waste materials; however, the Department of Ecology (DOE) has been working with four disposal vendors.

The program was successful in gaining approval by Spokane Airborne for incineration of pharmaceutical waste material in this state. This was is a significant accomplishment since it would allow other disposers to use this site.

Bartell Drugs will join the program once the project has adequate collection vessels for their facilities.

Phil Schoeneman, of P.S. Industries Inc. (a Washington licensed reverse distributor), presented the Board with a letter requesting to participate in the Consumer Waste Pharmaceutical Collection Pilot Project.

#### Program Manager

*Doreen Beebe* advised the Board that the January business meeting has been re-scheduled for Friday, January 26 in Tumwater.

### Delegation to Initiate Investigations

The Board discussed a proposed draft rule to delegate the authority to initiate investigations to the Case Management Team (CMT). **MOTION:** George Roe moved that the Board request that staff initiate the rule making process to delegate the authority to the CMT to initiate investigations for the allegations/conditions listed in the proposed draft. Rebecca Hille second. **MOTION CARRIED 6-0.**

### **EXECUTIVE SESSION**

The Board adjourned for Executive Session at 12:15 p.m. to discuss personnel issues and pending litigation.

The Board reconvened at 1:00 p.m. – Susan Teil-Boyer was excused.

### **PRESENTATION**

#### Wal-Mart Remote Review of Prescriptions

Dr. Susan Hiland, presented Wal-Mart's proposal for remote medication order review, using "Connexus", to help balance workloads between Wal-Mart pharmacies. The process begins with the receiving pharmacy scanning the original prescription and transmitting the image electronically to an off-site location for data entry and pharmacist's verification (4-point check-label verification – Patient name, drug, strength, and directions) and drug utilization review (DUR). The prescription would then appear in the originating pharmacy's filling queue where the pharmacist will verify, fix or override the DUR and conduct final visual verification before dispensing the prescription.

**MOTION:** Rosemarie Duffy moved that the Board approve Wal-Mart proposal to utilize a remote order processing/review only in licensed pharmacies located in Washington State. The Board requires Wal-Mart to post signs informing patients that they have the option not to participate in remote order review. Rebecca Hille second. **MOTION CARRIED 5-1.** George Roe opposed.

**MOTION:** Rosemarie Duffy moves that the Board amends its *Remote Processing of Medication Orders* guidelines to require pharmacies post signs informing patients that they have the option not to participate in the remote order processing. Rebecca Hille second. **MOTION CARRIED 5-0.**

#### Skagit Valley Hospital After-Hours Remote Order Processing for United General Hospital

Andy Mecca provided a brief introduction to a request proposed by Skagit Valley (SVH) and United General (UGH) Hospitals for after hours processing of medication orders.

Rick Thurman, Pharmacy Director of Skagit Valley Hospital detailed the proposed process and accepted questions by the Board. Mr. Thurman explained that a pharmacist's review is required in order for the (UGH) nurses to remove medications for the Omnicell automated distribution devices without an override. SVH pharmacy proposes to provide remote order review after UGH's pharmacy's operating hours. The SVH pharmacist will receive the order via facsimile or electronic transmission. The SVH pharmacist will enter the prescriptions directly into the UGH's

computer system providing the pharmacist with access to the patient's allergies/care plan information.

Mr. Mecca clarified that remote order processing is permitted by Board guidelines by pharmacies that do not have the same owner so long as the pharmacies have entered into a written contract or agreement which outlines the services to be provided and the responsibilities and accountabilities of each pharmacy – in compliance with federal and state regulations.

**MOTION:** Donna Dockter moved that the Board approve the remote medication order processing request by Skagit Valley Hospital for United General Hospital. Rebecca Hille second. **MOTION CARRIED 5-0.**

Providence Everett Medical Center Requests Approval for Emergency Department Pharmacy Booth.

Tim Fuller provided a brief introduction to the request proposed by Providence Everett Medical Center (PEMC) for an Emergency Department (ED) pharmacy booth to process prescription for discharged ED patients.

Eric Werttemberger, Director of Pharmacy for PEMC detailed the proposed process and accepted questions by the Board. Mr. Werttemberger explained that the hospital is in the process of planning a major redesign of its campus which spans over approximately four city blocks. The location of the pharmacy has yet to be determined but the reconstruction may result in the pharmacy being located a distance away from the Emergency Department (ED). The reconstruction project is scheduled for completion in 2011.

The proposed pharmacy booth will provide an opportunity for the hospital pharmacy to continue to service discharges prescriptions to ED patients (approximately 97,000 ED patients per year). The booth (kiosk) will provide patients with audio/video access for remote interaction with a pharmacist and the dispensing of prescriptions through a pneumatic tube system similar to those used by retail pharmacies with drive-up windows. Drug utilization review/evaluation and counseling are conducted before the medication is dispensed to the patient.

Discussion:

- Telepharmacy reserved for 340B clinics. (PEMC – 340B hospital)
- No established regulations/guidelines for these types of proposals.
- Similarities/differences to other pneumatic tube systems.

**MOTION:** Donna Dockter moved that the Board defer the decision on this until the Board has developed guidelines on the use of systems such as proposed by Providence Everett Medical Center. George Roe second. **MOTION CARRIED.** 4-1. Rosemarie Duffy opposed.

**Action:** Donna Dockter asked for a report from Investigators on what kind of similar systems are currently being used and which ones may be problematic.

Lisa Salmi explained that the development of guidelines will require stakeholder input and that the Board will advise Mr. Werttemberger at the earliest regarding PEMC's proposal.

Yakima Valley Farm Worker's Clinic's Call Center – 6-month Board review

Investigator Jim Doll summarized his observations while conducting an inspection on November 15, 2006, of the Yakima Valley Farm Worker's Clinic – call-center. Mr. Doll stated that call-center's bi-lingual staff, English and Spanish, handled callers with ease. The YVFWC call-center, approved by the Board at its April 2006 meeting, services pharmacies located in Yakima, Grandview, Toppenish, Walla Walla and Spokane.

Concerns:

- No documentation of call monitoring or evaluation of call-center staff.
- Lack of documentation of bi-monthly meetings (the minutes were provided to the Board prior to this meeting)
- Call-center staff using discretionary judgment to identify medication requested for refill when the prescription number was not available. (noted in May 14<sup>th</sup> bi-monthly meeting minutes)
- Call-center staff process prescription refills for Yakima pharmacy and use pharmacist's password to override DUR.

YVFWC was represented by Patrick Bucknum, Director of Operations, Jade East, Pharmacy Director, Laine Dowling, Regional Operations Manager and Brandy Voight, Yakima Pharmacy Manager.

Mr. Dowling and Ms. Voight summarized the objectives of the Call-Center and some of the challenges that they have encountered. They increased the number of call-center staff to improve call wait times and to handle the high volumes of calls. The call-center has successfully reduced the number of telephone interruptions in the pharmacies.

**Action:** The Board advised YVFWC to contact Board staff for assistance with any concerns or issues that may arise and asks that YVFWC provide the Board with the following:

- 1) Written acknowledgment that the issue of pharmacist(s) failing to have inadequate control over their personal passwords has been resolved.
- 2) Updated policies and procedures/quality Assurance to include:
  - a. Personal passwords must be under the user's control.
  - b. No processing of prescriptions by call center staff.
- 3) Copies of satisfaction surveys and mystery shopper information.

The Board will re-inspect the YVFWC's call center operation in 3-months.

Peninsula Community Health Services Requests Approval of Telepharmacy

Tim Fuller introduced Douglas Phelps, M.D., the Medical Director at Peninsula Community Health Services, who briefly described PCHS organization and its objective to use telepharmacy services to improve patient safety and staff productivity at the Poulsbo clinic.

Dr. Jennifer Kreidler-Moss, Pharmacy Services Manager detailed the telepharmacy function.

- Pharmacist located at Central Pharmacy in Bremerton will to processing for telepharmacy.
- Pharmacist video-link to patient in Poulsbo
- Telepharmacy cabinet to stock formulary (automated distribution device)
- PDX software program
- Intergraded medical records system
- Poulsbo currently averages 12 prescriptions per day

- Extensive sample formulary

**MOTION:** Rosemarie Duffy moved that the Board approve Peninsula Community Health Services' policies and procedures for a telepharmacy in Poulsbo supported by the central pharmacy in Bremerton. Gary Harris second. MOTION CARRIED 5-0.

#### Operating Agreement

Chair Awan introduced Bonnie King, Director of Health Professions Quality Assurance.

Ms. King began her discussion by updating the Board on the hiring process for the Executive Director position with the Board of Pharmacy. Asaad Awan, George Roe, Rebecca Hille, Lisa Salmi, Steve Saxe, and Bonnie King participated in interviews held this fall. The position was offered but later declined by the candidate. The Department of Personnel and Department of Health is reviewing the Washington Management System positions to assess the salary level with comparable positions in state service to justify a higher salary level. More information should be available at the end of January.

Ms. King asked to discuss with the Board the history and purpose behind the operating agreement between Boards/Commissions and the Department of Health. She explained the Secretary of Health, Mary Selecky, worked with all 16 Boards/Commissions to get consensus on the agreement language. Fourteen of the 16 Boards/Commissions have signed the agreement. However, the Department has abided by the agreement in spirit of cooperation and collaboration with all Boards and Commissions.

Ms. King also explained that the Board of Pharmacy and the Nursing Care Quality Assurance Commission's agreement required addendums to capture specific statutory requirements.

Signing the agreement would memorialize the way we work together. Pharmacy Board requires an addendum because - where there is a specific statutory requirements an addendum is attached to the agreement to spell out those requirements the Nursing Commission is the only other Boards and Commissions with statutory requirements.

#### Discussion:

- Concerns that the agreement does not provide assurances that the Board has control over funding the priorities that it identifies. Example – End of last biennium spending freeze prevented staff/board members from attending the Utah School of Alcoholism and Drug Abuse. This training is a high priority for the Board of Pharmacy with the number of drug diversion cases that are handled by this Board.
- Budget development/credentialing fees – Proposal for increase in credentialing fees to subsidize impaired provider program (WRAPP) must be presented to the Secretary of Health.

Ms. King acknowledged that the Board has faced many challenges in 2006 and stated that she appreciated their dedication and looks forward to being invited back for further discussion on the operating agreement.

Joyce Roper reminded the Board that she cannot serve as their counsel when addressing issues regarding the Operating Agreement, since she serves as counsel to the Secretary of Health. She

asked that the Board notify her in advance when they plan to discuss this in the future so she may arrange for another AAG to serve as the Board's counsel.

#### Correspondence

The Board was given correspondence, articles and other relevant information for review. No discussion.

- *Generic-drug Machines Grow – ATM devices dispense samples.* By Kathleen Kerr
- *U.S. to Allow Canadian Drug Imports* – by Lisa Giron – LA Times
- *CDC Portfolio Assessment – Washington 2006*
- *Planning for Board Performance Measures* –by Lucy C. Gee, M.S. – Florida State Medical Quality Assurance Division Director (PowerPoint)

#### Election of Board Officers for 2007

MOTION: George Roe moved that the Board reappoint Asaad Awan and Rebecca Hille as Chair and Vice-Chair respectively. Gary Harris second. **MOTION CARRIED 5-0.**

#### OPEN FORUM.

Doug Beeman, Group Health Cooperative – Requests that the Board consider placing the prescription transfer process on the rule review list.

**PRESENTATION OF AGREED ORDERS** – Orders presented to the Board for consideration.

#### ADJOURNMENT

There being no further business, the Board adjourned at 4:15 p.m. The Board of Pharmacy will meet again on January 26, 2007 in Tumwater, Washington.

It is with sincere appreciation that the Washington State Department of Health wishes to recognize Donna Dockter for her commitment and service as a member of the Washington State Board of Pharmacy from June 1999 to January 2007.

**December 15, 2006 – Disciplinary Hearing – Cancelled due to power outage.**

Respectfully Submitted by: *Doreen E. Beebe, Program Manager*

*Approved on January 26, 2007*

---

*Dr. Asaad Awan, Chair  
Board of Pharmacy*
